

LONDON ON THE QUI VIVE

News of Heavy Fighting North of Tugela River Expected Any Hour

TENSION IS EXTREME

Gen. Warren's Division Has Started on the March to Relieve Ladysmith

BULLER'S FORCES ARE WORKING TO THE NORTH.

Skirmishes With Boer Outposts For Every Step the English Advance—Dr. Leyds Believes That the Impending Battle Will Be a Crisis in the War—He Believes Buller Will Be Defeated and His Forces Practically Annihilated—Warren Began Investment of Boer Trenches at Taban Today.

London, Jan. 20.—[Special Cablegram]—News of heavy fighting north of the Tugela river is expected any hour and the tension is extreme. It is the general impression that a serious engagement will have to be fought by Gen. Buller's forces before Ladysmith can be relieved and the result of the battle is not expected to be determined in one day's fighting.

The success of Dundonald's force near Acton Homes Wednesday indicates that Gen. Warren's flanking operations were successfully begun and should have been so far completed as to allow Gen. Buller to attack yesterday or today.

A dispatch from Spearman Camp dated yesterday says that Gen. Warren's division started early that day on the march to Ladysmith. This may be premature, but it is argued that Warren is in a position to cut off the Boer's lines of communication between Ladysmith and the Orange Free state.

Butler Working Northward
London, Jan. 20.—[Special Cablegram]—Dispatches from Cape Town dated yesterday say that Gen. Buller's forces are working northward. Constant skirmishing is reported to be going on, but the Boers are gradually falling back.

Investing the Boer Trenches.
Spearman's Camp, Jan. 20, noon.—[Special Cablegram]—Gen. Warren today began the investment of the Boer trenches at Taban and Mayno mountains. He opened fire with his artillery and later for a few minutes musketry was heard in his direction. One of the prisoners taken by Dundonald in the skirmish near Acton Homes is a grandson-in-law of Pres. Krueger.

Marks Crisis of the War
Brussels, Jan. 20.—[Special Cablegram]—The Transvaal legation here is following Buller's plan of attack for the relief of Ladysmith with the closest interest. Dr. Leyds is quoted as saying that the impending battle in Natal marks the crisis of the war. He believes Buller is dividing his forces and says that if he is defeated he will be practically annihilated.

Total Loss of the Boers.
Cape Town, Jan. 20.—[Special Cablegram]—Carefully compiled figures, some or which have been investigated and found to be correct show that the Boers losses to date approximate 6,428 men, which includes 2,000 casualties during the Ladysmith siege.

French Extending His Lines.
London, Jan. 20.—[Special Cablegram]—Gen. Roberts reports from Cape Town that Gen. French has extended his lines further eastward and is threatening the enemy's communications.

Gen. Gatacre Moving North.
Starkstrom, Jan. 20.—[Special Cablegram]—Gen. Gatacre is slowly advancing northward unopposed.

Marlborough Off For the Front
Southampton, Jan. 20.—[Special Cablegram]—The Duke of Marlborough, who was appointed to a captaincy in the Imperial Yeomanry, sailed for South Africa today.

BULLER'S FORCE IS INCREASING
He is Now Said to Have 40,000 Men in His Command

London, Jan. 20.—Every hour that Gen. Buller delays his combined attack makes his position stronger. Reports continue to arrive at Durban and fresh troops are being sent up the line to reinforce those in front of Colenso. It appears that Gen. Buller's troops north of the Tugela number at least

22,000 and possibly 25,000, with fifty guns. His total forces, forming a great outer curve south and west of Ladysmith, probably number 40,000.

While Gen. Buller's former operations which began on Jan. 10, develop rather leisurely, the Boers appear to be fully aware that they must meet a strenuous assault. Balloon observations have roughly estimated that 10,000 Boers are using spade and pick in artificially strengthening positions, which nature has rendered easy of defense.

Military critics, in touch with the war office, say that the news that general fighting has begun may be expected at any time.

It is not thought that one day's fighting will settle the fate of Ladysmith, but rather that there will be two or three days of continuous fighting.

BOERS ARE STILL FALLING BACK
Seem to Offer Little Opposition to Advance of the British.

London, Jan. 20.—A Durban special, dated Thursday night, says: "It is reported here that Lord Dundonald has smashed a Boer convoy. 'Gen. Buller is said to be within twelve miles of Ladysmith, and Gen. Warren to be about six miles to the rear.'"

Spearman's Camp, Jan. 19.—Gen. Warren and Lord Dundonald are continuing a cautious advance, hourly expecting battle. There has been slight artillery firing here, at Ladysmith and at Chieveley. Natives report that the kopjes are full of Boers.

Spearman's Camp, Natal, Jan. 18.—The Boer trenches have been persistently shelled by the naval guns all day long. Small parties of Boers were seen at intervals, and a large force, from the direction of Ladysmith, was seen trekking toward the northward British position.

On the left, Gen. Warren's troops remained in possession of two prominent kopjes behind Spion kop. There was some Boer sniping, but it was ineffective.

The Graafriet Boers evacuated Prieska Jan. 15, and returned northward across the river.

London, Jan. 19.—General Buller has telegraphed the war office from Spearman's Camp, under date of last evening, as follows: "Lord Dundonald with a body of mounted troops came into action this afternoon with a force of Boers west of Acton Homes. After a fight he occupied several kopjes, which he is still holding. Field Cornet Heilbrun was killed, twenty Boers were killed or wounded and fifteen prisoners taken. Two British soldiers killed and two wounded."

COMPLICATIONS ARE GROWING

Milwaukee Street Car Franchise Fight Beyond the Comprehension of Most People.

Milwaukee, Jan. 20.—The entrance of the supreme court into the street railway imbroglio has added in the complications, which were already assuming such proportions as to place the standing of the cases beyond the comprehension of most people.

Before Judge Ludwig yesterday afternoon Attorney Timlin moved that further hearing of the injunctive case be deferred until after Feb. 2, when the vital question in the case would be brought before the supreme court, and its decision would end the matter, if it should hold that the lower court has no jurisdiction over the common council.

Attorney Miller for the street railway company objected to this on the ground that it would prevent the company from filing its acceptance of the ordinance until too late, and the ordinance would therefore become void.

Attorney Quarles said today in explanation of the writ of prohibition obtained from the supreme court: "So far as I know the writ will bring the same question before the supreme court that we had here—that of jurisdiction. The writ is something rarely resorted to, and still more rarely granted, even in its alternative form. It has been granted once in Wisconsin in its absolute form, and that was against Judge Bailey of Eau Claire, to prevent the punishment of the parties for contempt. I think it was resorted to once or twice in an early day, but for many years the supreme court of Wisconsin has refused to resort to it, because it is an extraordinary writ, and to be issued only when the strenuous questions of jurisdiction are presented, when the exigency is such as requires an unusual interposition of the supreme court to hold the matter in the lower court until the Appellate court can act."

But on Presidential Campaign.

New York, Jan. 20.—Betting on the presidential campaign has begun. The first recorded wager is one of \$2,000 to \$3,000 that William J. Bryan will be the next chief executive. The wager was made yesterday by two Gotham politicians.

Indiana Would Honor Lawton.

Washington, Jan. 20.—Senator Beveridge has made a request of the adjutant-general that Gen. Lawton's body be allowed to lie in state at Indianapolis. Gov. Mount telegraphed an earnest request on behalf of the people of Indiana that the body be allowed to come by way of Indianapolis.

SAVAGE BLOW TO HUMAN LIBERTY

Senator Hale of Maine, Champions the Cause of the Boers

SIDES AGAINST BRITAIN

Says Nine-Tenths of the People in This Country Favor the Boers

England's Claim of American Sympathy Desired—South African Conflict Denounced as Cruel, Despotism and Unlawful—Declares That Diplomatic Recognition Should Be Given the Transvaal—Vigorous Attack on English Policy.

Washington, Jan. 20.—A speech, sensational in its interest and international in its importance, was delivered in the senate late yesterday afternoon by Mr. Hale. The occasion of the utterance was the simple question whether a resolution introduced by Mr. Allen calling for information as to the recognition by this country of diplomatic representation of the Transvaal republic should be directed to the president or to the secretary of state.

Mr. Hale made the question the text of an impassioned speech in which he declared that nine tenths of the American people sympathized with the Boers in their gallant struggle for liberty against one of the greatest powers in the world. He spoke with unusual force, decisiveness and earnestness, even for him, and his passionate eloquence claimed the closest attention of every auditor.

Americans With the Boers
Mr. Hale said he could not believe that any accredited representative of the Transvaal Republic had been rejected by the president.

"I do not fail to take notice that throughout the length and breadth of the land the sympathies of the great American people are in favor of the struggle which the Boers are making today to preserve a republican government against one of the greatest powers in the world."

Attacks Great Britain

"I do not doubt that the American people agree with me that the war which Great Britain is waging is the most fell blow at human liberty that has been struck in the last century. I do not doubt that the administration representing the people of the United States feels today as I feel on the subject and as nine-tenths of the American people feel."

Mr. Hale quoted from a speech of Mr. Balfour, in which the British statesman had declared the Boer war had knit together every branch of the English speaking race.

"I deny, sir," declared Mr. Hale with great feeling, "that the American section of that race is in sympathy with Great Britain in the South African war to stamp out the liberty of a people. I deny that the American people are to be tied to the chariot wheels of war against the South African republics. And when the leader of the conservatives in the house of commons asserts that he should be met by some disclaimer from this side of the Atlantic."

Openly Blames Chamberlain.

"I do not wish international complications," said Mr. Hale in conclusion. "I do not wish war. I recall that we have not been so much in love with neutrality in times past that we could not speak up boldly for Hungary, Poland, Armenia, Cuba and Greece, and I do not know why it is now that we must speak with bated breath in favor of liberty."

"I do not believe that the English people are in favor of this war. I believe that the great queen on bended knees, has prayed that the war might be averted. I do not believe that the great premier of England favored the war. It was the act and movement of a sharp cabinet minister engaged with gold speculators which favored the war."

Previous to Mr. Hale's speech there was a sharp colloquy between Mr. Allen and Mr. Spooner, and the latter moved that the resolution be directed to the President and be requested to furnish the information if not incompatible with public interests. In this form the resolution was adopted.

There are 428 colleges in America, with property estimated at \$250,000,000. Girard, with \$15,000,000, and Leland Stanford, Jr., with \$12,500,000 are the richest.

EXPANSION TO BE THE CHIEF ISSUE

Bryan Consents to Abandon Free Silver As First in Importance

PARTY LEADERS AGREE

Anti-Expansion Will Be the Democratic Presidential Campaign Cry

Democratic Conference at Washington Results in an Agreement on the Policy to Be Adopted in the Coming Fight—Will Advocate Abandonment of the Philippines—Maryland Democracy Giving Bryan the Cold Shoulder.

Washington, Jan. 20.—Mr. Bryan is now in Washington, and his visit has practically determined that expansion is to be the chief issue of the presidential campaign of 1900. The prospective democratic nominees have been in conference with the democratic leaders and it is understood an agreement has been reached among them to push the fighting this year on anti-expansion lines.

People Make the Issues

Mr. Bryan insists that the money question shall not be neglected, and that Secretary Gage's alleged mismanagement of the public funds shall be made the most of. But the democratic leaders who have been in consultation with Mr. Bryan are shrewd enough to recognize that in every presidential campaign one issue overshadows all others, and to lay their plans accordingly.

It may be said that there is recognition among both democratic and republican leaders that the people and events, not the desires of politicians, make the issue. In 1896 certain prominent republicans wanted the tariff kept at the front, but it was impossible to do so. The battle of standards was on in the minds of the people, and it had to be fought out. Tariff, therefore, became of secondary importance. It is agreed on both sides that just as the money standard was perforce the issue four years ago, so the campaign of this year is to hang upon the question of territorial expansion.

Bryan's Attitude on Expansion

Mr. Bryan's visit has shown that in so far as he and his fellow democrats may be able to control matters they do not intend to permit the issue to be fairly and squarely made. Today Mr. Bryan wrote for the press a statement of his attitude on expansion and is careful to say that he is "for expansion but against imperialism."

For a definition of what he means by this Mr. Bryan says he is in favor of giving independence to the people of the Philippines and protecting them from outside interference. This amounts to a protectorate, but Mr. Bryan does not show Filipino independence can be reconciled with an American protectorate.

Practically Mr. Bryan advocates abandonment of the Philippines to whatever fate might be in store for them under their own rule.

Split in Maryland Democracy.

Baltimore, Md., Jan. 20.—William Jennings Bryan's visit to this city today and the action of the democratic majority in the lower house of the legislature in shelving a resolution asking him to address that body have had the effect of dividing the Maryland democracy and opening the fight for control of the delegation to the national convention.

All the democratic officials and party leaders will give Bryan the cold shoulder.

Behind it all is the influence of Arthur Pue Gorman and Gov. Smith, who are determined to control the Maryland delegation in the interest of sound money and against Bryan. It is also becoming more and more apparent Gorman is in the fight himself for the nomination.

BOND FORCES WIN AT HELENA

Citizens of Montana City Vote For Municipal Ownership

Helena, Mont., Jan. 20.—Despite the opposition of many citizens and business men Helena voted in favor of municipal ownership. Mayor Edwards led the bond forces. The proposition to bond Helena for \$60,000 for a water works system and \$30,000 for an electric light plant carried by a vote of nearly four to one.

Perils of High Living.

High living and overeating has killed many a potentate and monarch. It carried off Alexander the Great in the full flush of his career. Augustus Caesar died of it. Henry VIII. died of overeating and so did George III. In our day many a man of millions has died similarly. William H. Vanderbilt fell dead of heart disease complicated with kidney trouble; so did ex-Gov. Roswell P. Flower. The annals of Washington official life are filled with the deaths of prominent men who dined unwisely.

SAYS IT IS ALL NONSENSE

Scouts the Idea of Any Wisconsin Candidacy For Vice President.

Marinette, Wis., Jan. 30.—Isaac Stephenson was asked in regard to the reports connecting his name with the vice presidential nomination. He said: "To anyone that knows anything of national politics," said Mr. Stephenson, "the talk about a candidate for vice president from Wisconsin is all wind. The West will not get the vice presidential nomination and even if it did come West it would be given to a more doubtful state and not to a Republican stronghold like Wisconsin. As far as I am concerned the discussion is all nonsense and hardly worthy of consideration."

OSMAN DIGNA IS CAUGHT

Mahdiah Leader Captured Unhurt by English Troops in Egypt.

London, Jan. 20.—A dispatch to the Telegraph from Cairo says: News was received tonight that Osman Digna has been captured. It has been known for some time past that he was in the neighborhood of Tokah, and six days ago a number of expeditions from Suakin were organized under Captain Burgess, with the result that Osman was taken unhurt in the hills yesterday. The famous captor will arrive in Suakin tomorrow.

ENGLAND IS MADE TO BACK DOWN

British Government Has Acceded to Germany's Demand to Release the Bundesrath.

Berlin, Jan. 20.—In the Reichstag yesterday afternoon Count von Bulow, minister of foreign affairs, announced the details of the settlement of the controversy raised between Germany and Great Britain over the seizure of the steamer Bundesrath at Delagoa Bay on Dec. 30.

Count von Bulow not only stated that the British government had acceded to Germany's demand for the release of the steamer, but had made concessions which would prevent a recurrence of the incident.

In addition to the announcement, Count von Bulow stated that Germany would be willing to participate in an international conference in an effort to settle disputed points in maritime law, and outlined in detail the rules to which Germany would subscribe. The rules he proposed were six in number, and covered the right of search, the procedure to be followed, the definition of contraband of war, and the penalties for illegal seizures of vessels or cargoes.

FOR FREE TRADE TO PORTO RICO

Plan to Extend Tariff Laws to That Island by Special Act of Congress.

Washington, D. C., Jan. 20.—Free trade between the mainland of the United States and the island of Porto Rico is expected to come in a short time. The administration, as a precautionary measure, believes the constitutional limitations as to tariffs does not apply to the islands, so the policy in the Philippines may still be defined on a tariff basis. The condition in Porto Rico has reached the stage where the President and his advisers can see no other means of relief except absolute free trade between the two.

The present plans are to extend the existing tariff laws to Porto Rico by act of Congress, and not a constitutional right. This will relieve the natives by giving them a new free market and by permitting them to import manufactured articles from the United States without payment of duty. At the same time it will prevent importers raising the constitutional question as to the right of congress to make different tariffs for territories and states.

An effort will be made in congress to come to the relief of the Porto Ricans by extending the custom laws to the islands at once as an emergency measure, which can be withdrawn later if necessary.

COL. ANDERSON IS GIVEN THE PLACE

Named For a Position On the State Tax Commission by Gov. Scofield Today.

Madison, Jan. 20, [Special Telegram]—Gov. Scofield today announced the appointment of Judge N. S. Gilson of Ford du Lac to be tax commissioner in place of the late Gen. Michael Griffin of Eau Claire. Col. W. J. Anderson of Madison, to succeed Judge Gilson on the commission and Dan B. Starkey of the Evening Wisconsin to succeed Col. Anderson as the governor's private secretary.

Washington's Soldiers' Home.

It is not generally known that the soldiers' home in Washington for veterans of the regular army and navy was established with money obtained from Mexico after the war with that country. Twelve and a half cents is deducted every month from the pay of every regular in the army and navy for the support of the home.

REBELS AMBUSH A PACK TRAIN

Gen. Otis Reports Two Men Killed, Five Wounded and Nine Missing

AN UNEXPECTED BLOW

Serious Dissensions and Restlessness Among Cubans in Province of Santiago

Full Text For the New Law For the Civil and Military Authorities of Cuba Has Been Issued—Rebel General Hizon Severely Defeated By Lieut. McRae Near Mahalacat—Filipinos Scattered Into Small Bandit Troops.

Washington, Jan. 20.—[Special Telegram]—Gen. Otis today reports the ambushing of an American pack train in Laguna province by the insurgents, and the killing of two men, wounding five, and nine are reported missing.

The pack train was lost. The killed, wounded and missing are members of the Thirty-Eighth Infantry.

The affair is being investigated. General Otis also reports that the Forty-Fifth Infantry also struck the insurgents in the mountains, and they were preparing to ambush him. He killed eight, wounded three and captured seventeen. His casualties were two, slightly wounded.

SANTIAGO DE CUBA IS RESTLESS

Agitation Against Gen. Wood's Policy Irritating the Cubans

Santiago de Cuba, Jan. 20.—[Special Cablegram]—Serious dissension and restlessness is being created in this province by Generals Miro, Castro and Rabi. They have begun an agitation against Gen. Wood's policy, and their speeches have tended to irritate the excitable Cubans.

Sets Up Civil Law in Cuba.

Havana, Jan. 20.—The full text of the order relating to the duties of civil and military authorities was issued Friday. Civil officials are charged with the conduct of civil affairs, under supervision of the military governor alone. Military officers, the order directs, are not to interfere with the civil authorities, except under extreme conditions, where, in their opinion, public order, life, and property are in serious danger.

Manila, Jan. 20.—First Lieut. McRae, with a company of the Third infantry, has severely defeated Gen. Hizon and the remnants of his command near Mahalacat.

TWO INDICTMENTS AGAINST COLSON

The Grand Jury is Also of the Opinion That Colson Killed Julian.

Frankfort, Ky., Jan. 20.—[Special Telegram]—The grand jury today returned two indictments against ex-Congressman Colson for the murder of Ethelbert Scott and Luther Demare. The jury was of the opinion that Colson also killed Julian, but this does not appear in their report.

REPORTS ON ROBERTS

Majority and Minority Reports Sent to the White House—Mrs. Dewey Very Ill.

Washington, Jan. 20.—[Special Telegram]—Majority and minority reports on the Roberts investigation were presented to the house today. Chairman Taylor gave notice that he would call up the reports next Tuesday.

The proposition of the minority is that Roberts be admitted on his prima facie right as evidenced by his credentials, and then expel him. The majority report argues that he has no right to a seat and should be excluded without being allowed to take the oath.

Mrs. Admiral Dewey is ill with laryngitis. While her condition is not alarming, she is ill enough to be in bed, and is forced to cancel all social engagements.

Dying Man Confesses a Crime.

Redwood Falls, Minn., Jan. 20.—A report has reached here from relatives of the deceased that old man Slover recently died in California and that he made a deathbed confession that he had killed Moses Lufkins in Gales township, this county, some twelve years ago, instead of William Rose, who was afterwards executed for the crime. In a speech from the gallows Rose affirmed his innocence and charged Slover with the crime.

MRS. HURD ARRESTED ON BIGAMY CHARGE

WHEN ARRAIGNED IN COURT
SHE WAS DISCHARGED.

Papers Were at Fault and the Accused Could Not Be Held—Claimed That the Defendant Was Too Free in Selecting Husbands—She is Well Known.

Rumpling work on the part of Milton officers has resulted in the release of Mrs. Hattie Hurd from the clutches of the law. When the case was called before Judge Fifield of the Rock county municipal court District Attorney Jackson refused to prosecute and the arrested woman was given her liberty.

Mrs. Hurd was arrested at her home near Milton on the serious charge of bigamy. When arraigned before Justice Stillman at Milton for examination the evidence was of such a strong nature that the weeping woman waived examination and was bound over to the municipal court.

Mrs. Hurd, it is alleged, married one too many times. Her arrest caused no end of talk in and about Milton and the outcome was awaited with much interest.

SHOULD USE COLORED LIGHTS

Street Railway Patrons Are Unable to Distinguish Cars at Night.

Patrons of the Janesville street railway are making bitter complaint on account of the signs of the cars. At night time it is almost impossible to tell one car from another and often people get left. The signs on the front of the car cannot be distinguished ten feet. When colored lights were used it was a great deal better and the patrons of the road became accustomed to them and knew cars a block away.

People are now obliged to run out into the middle of the street and "rubber neck" as the small boy calls it, and then they walk back. If the sharpest kind of a lookout is not kept a car is missed.

MRS. RICH OWNS HOMESTEAD

Judge Dick Holds Mrs. Rich Once Had a Deed.

In the case of Catherine M. Rich vs. Genevieve M. Rich, Judge J. J. Dick has found in favor of Mrs. Rich and has ordered that the judgment of the court be recorded in the office of the register of deeds in lieu of the lost deed. The case was over the possession of the Rich homestead, 407 Court street. Mrs. Rich claimed the house was deeded to her but she could not find the deed. Miss Rich, the defendant and a daughter of the deceased, alleged that her father never gave the deed to his wife.

Dr. Brayton Says It Is Smallpox. Indianapolis, Ind., Jan. 20.—The reported epidemic of smallpox at Clay City, which some local physicians diagnosed as chicken-pox, continues to spread. The disease has been prevailing in the community for over a month, and previous to the visit of the secretary of the state board of health no sanitary precautions had been taken. Dr. Altembert W. Brayton of this city, a recognized expert in skin diseases, who was sent to Clay City to investigate the epidemic, reported that the disease was smallpox, and that it would probably continue in the locality throughout the winter and spring.

Miners Idle in Europe

Vienna, Jan. 20.—The strikes in the coal districts in Moravia and Bohemia are assuming threatening proportions. Besides the 11,000 miners who went out early in the week at the mines at Kladno, in Bohemia, there are now 16,000 on a strike in the region between Ostrau and Krawin, in Moravia. The prospect of a coal famine is troubling manufacturers throughout all the northern part of the empire.

Senate Cautious Undecided

Washington, Jan. 20.—For two hours Friday afternoon the republicans of the senate caucused over the election of a sergeant-at-arms and secretary. After adjournment it was said no conclusion was reached, although there are strong indications that Daniel S. Ramsdell of Indiana will be elected sergeant-at-arms and former Representative Charles G. Bennett of Brooklyn secretary.

CONFIRMED BY MISS ANTHONY

Says It Is True She Will Resign Woman Suffrage Leadership

Rochester, N. Y., Jan. 30.—Miss Susan B. Anthony today officially confirmed the report that she is to resign as president of the National American Woman Suffrage Association.

"My determination not to accept the presidency again is unalterable," she said.

Miss Anthony also said the statement that she is to devote herself to the raising of a fund for a permanent organization is true.

The resignation of Miss Anthony is to be presented to the National Suffrage Association at the annual meeting which opens Feb. 5, at Washington.

BRIEF BITS OF COUNTY NEWS

WEST PORTER.

West Porter, Wis., Jan. 20.—Mr. and Mrs. George Keylock gave a Crokinole party to a number of their friends last week Friday night. Curt Pierce and George Morrison took their departure last Tuesday for South Dakota where they expect to visit relatives for several days. Martin Hagen left last Tuesday for Norway for a few months visit with relatives. Miss Louella Conroy has been at her home in Janesville for the past week on account of her school being closed for a few days, there being two cases of scarlet fever in the district. Those are Roy Patterson and Floyd Wall. Hense and Ole Hoakinson who are working in Janesville spent Sunday at home. A number from this way attended the club dance at Evansville last Saturday night.

Miss Dill Tolles was a guest of Mrs. Will Baldwin of Evansville last week Thursday. Burr W. Tolles, who is visiting at Rich Valley and Peru, Indiana, writes that he is enjoying the sights of the petroleum works in that vicinity. He says it is a sight to see the oil derrick alone. Mr. Joel, piano tuner for the Chase Co. of Chicago, has been tuning several pianos in this vicinity recently.

RICHMOND

Richmond, Wis., Jan. 19.—Myron Holbrook had a "bee" last week, and a good many of his neighbors helped to fill his ice house.

Johannie Campbell is staying at home for a short time, owing to the sad misfortune of his mother fracturing her leg by falling into the cellar. Although advanced in years, she is doing nicely.

Mr. Anderson of Whitewater, who purchased the Olson Bros' wood lot, is drilling a well and building a house. Ward Edwards of Wautoma, visited at H. Peterson's, a short time ago.

Johnston people are busy drawing ice from Turtle Lake to fill the ice house. A better ice crop could not be asked for. It measures about thirteen inches of clear ice.

A special meeting of the town board was called last Tuesday to determine the question as to whether a new road shall be laid across the east point of Lake Nine, as it will put the town to a very great expense, and will benefit but one or two parties, it was deemed unnecessary to lay the road, the question, however, will be put to the town board at the spring election and be determined by ballot.

Bright's Disease,

So called, after the English physician, Dr. Bright, who first investigated its character, is one of the serious ailments of mankind. It is caused by a degeneration of the tissues of the kidneys into fat. This impairs the exciting powers of the organ, so that the urea is not separated from the blood. Congestion follows and there is a throwing off of albumen and fibrin. The patient presents a flabby, bloodless look, is drowsy and easily fatigued.

Magnetic Treatment

RACINE AND JANESVILLE

Racine people are clamoring for a larger police force. Racine has a population of 29,000 people, and hires fourteen policemen. The Journal refers to this force as a "handful of men," and argues that the city needs a force of at least twenty five officers, saying:

"Other cities, much smaller than Racine, have from twenty to thirty men and of this number the majority patrol at night. It is almost impossible for two men to cover the south section of the city, and the west and north sides only have three men. Instead of large sums of money being paid for sewers and other improvements to accommodate a few, the police fund should be increased and the property owners given more men to protect their interests at night."

Chief of Police Johnson also recommends an increase in the force, so there is no question as to Racine's need.

This case also presents an illustration of value to Janesville people. As The Journal says, an adequate police force is of more value than some other of the more expensive departments and improvements. Racine now has one policeman to every 2000 people, and the plan is to increase the force to one officer for each thousand of inhabitants. If Janesville had as many officers, in proportion, as Racine now has, our force would be seven men. If we had as many in proportion as Racine needs, we would have fourteen.

Therefore, Janesville would be far from extravagant if from five to seven officers were employed—she would still have fewer officers in proportion, than the present insufficient Racine force.

The iron market ruled strong during the past week, but the rubber market was flexible. Wheat was elevated, while the barley trade was in a ferment. Corn and rye products went down, but butter and eggs were generally strong. No limit was placed on the game market. Dry goods measured full. The bulls confined themselves to the grain and produce markets while the bears preferred short ribs, cattle and sheep. Prospects for next week's trading could not be better.

Changes of venue, affidavits of prejudice, injunctions, stays, appeals, writs, counter writs, alternative writs, mandatory writs, writ writs and typewrit writs are all fashionable in Milwaukee just at present. In the meantime the four cent fare is the rule, the mayor and aldermen are held in contempt—of court—and the air is full of missiles, while the case is pendant in the supreme court. On with the dance.

The value of the Chicago drainage canal as a waterway for vessels is beyond estimate. Ships can soon make the trip from the ports of Europe direct to Chicago and thence through the canal, it is predicted, to St. Louis and the gulf. The government will be asked to take charge of the canal, and provide for deep water navigation.

The democratic national convention, dispatches say, will be held in the city that Bryan selects. It will be held on the date that Bryan selects, and it will nominate Bryan. When it comes to a question of one man rule, our democratic friends can show us a sample that was never before equaled.

The State Board of Health recommends that the authorities of all cities and villages pass ordinances providing for the testing of milk. The recommendation should be generally adopted as impure milk is the source of many ills.

An Oshkosh parrot recently died at the advanced age of eighty years, but it is said that there are a few talkative old birds still left in that city, so the Oshkosh language will not be allowed to die.

Chicago people brag so much about the currents in their river that we are hourly expecting the announcement

that they are soon to be canned and placed on the market.

St. Louis will probably cease to kick about the Chicago drainage canal when she finds out that the canal is likely to provide another outlet for the Missouri mule crop.

The proposed anti-dance law, applying to school teachers only, would certainly be legislation calculated to benefit one class at the expense of another.

The story about the Boers surprising a party of Boers who were bathing in a river, looks a good deal like the first chapter of a soap advertisement.

However, Milwaukee people have lost sight of their own war long enough to hold mass meetings in support of both the Briton and the Boer.

Eight men* were severely hurt at Milwaukee by the collapse of the scaffold upon which they stood.

*None being aldermen.

Bryan no longer sings "Maryland, My Maryland," for the simple but entirely sufficient reason that Maryland says she isn't his'n.

The war correspondents are now mobilized in Kentucky, and strange to say, they report a sober, yea, even a grave situation.

If the supreme court justices do not earn their salaries, Milwaukee people certainly cannot be blamed for the fact.

Through it all, however, Ladysmith has exhibited rare fortitude and patience.

In Kentucky, too, the Frankforters are boiling.

Philadelphia Record—His Honor, the mayor, bought a new alarm clock yesterday. Josh has been over-sleeping himself of late.

Indianapolis News—Our friend, Ike Tompkins, was here yesterday. Ike is no Hoosier, even if he does live in Mishawaka.

New York Journal—Bill Bryan, of Lincoln, (Neb.) was in town yesterday. Bill says business is looking up. Good luck to you, Bill.

St. Louis Globe-Democrat—There is a town up the creek a ways called Chicago, but if you want a letter to reach it, be sure to put on "Cook County, Ill."

Seattle Times—Old Bill Jones is home from the Klondike, with four tons of whiskers but no gold. Have 'em moved, Bill, or people will think you're a populist.

Cleveland Leader—Mark Hanna, of street railway fame, slept in Philadelphia last night, and Philadelphia is the only town anyone ever knew of his going to sleep in.

St. Louis Republic—The price of mules advanced yesterday, and in consequence the most prominent men in our midst are all happy, today. As mules go, so goes the world.

Squawtown (N. M.) Squawk—Tobe Thomas was shot in the collar yesterday but Doctor Plugmug says he will pull through if Tobe does. Better polish up a bit, Tobe. We had to charge you with an error yesterday.

The Bowers (N. Y.) Bladder—If the cent that swipes this paper from the doorsteps don't quit, he'll get a swipe that he won't swipe. So? A word to the guy with a wise nut ought to be enough, but if it ain't, we'll bend his neck.

Boston Globe—John Lawrence Sullivan, who has been incapacitated from his ordinary avocation for an extended period of time, because of discomfiting affection of the palate, is convalescent. Go it, John.

Memphis Appeal—Avalanche-Cyclone-Collar—Peter Jones, the engineer of the Mary and Maud, blew up the vessel yesterday, and Captain Bing blew up the engineer. If the gentleman will call at this office we'll tell 'em a few things about blowing. Come on, boys.

Havana (Cuba) Herald—General Leonard Wood dropped into this office yesterday and paid his subscription to this paper. No other general ever did this, but we knew Leonard would. Come again, when you have time, and we'll have our devil upon a keg of ink.

Dogtown (Tenn.) Ding-Dong—Our voracious and generally worthless contemporary, The Spread Eagle of Reform, suspended publication a week ago last Thursday. We knew Brer Buckins couldn't make it go. No dude that sends to Nashville for his chawin tobacco can thrive in these parts. Now is the time to subscribe.

Red Waters for Cockroaches.

An old method of get rid of cockroaches is both simple and efficient. This is by the use of common red waters that may be had at any stationer's, and which are, it seems, a food much esteemed by the insects. They eat them greedily and die from one or two effects.—New York Evening Post.

Men who are always in a hurry, and most men are, want a soap for the toilet that will lather quickly and freely in hot or cold water. Other soaps than Ivory may have this quality, but will likely contain alkali, which is injurious to the skin. Ivory Soap is made of pure vegetable oils, no alkali, produces a white, foamy lather, that cleanses thoroughly and rinses easily and quickly. Money cannot buy a better soap for the toilet.

SOLDIERS' WILLS.

How the English Private Disposes of His Belongings.

How does the soldier killed in battle or fatally wounded, dispose of his property, providing he has any to leave behind him? The list of casualties reported regularly from South Africa and the Philippines lend pertinence to the inquiry. Every English soldier has served out to him when he enlists a little volume which contains, among other things, three blank forms of will which he is at liberty to fill out at his leisure. In a majority of cases, however, he pays no attention to this pocketbook and goes into battle with his will still unmade. After he has been hit by a bullet and begins to realize that his chances of getting home are small, the soldier begins to think more carefully of the loved ones left behind him and of the provisions he has made for their comfort. As a result many queer and pathetic wills have been found upon the bodies of dead soldiers, and in every case the wishes of the testator have been respected. During the Sudan campaign of 1884 the body of one soldier was found on the battlefield of El Teb, who, before death had scrawled with the end of a lead bullet on the inside of his helmet, the words "All to my wife." When an English army invaded Afghanistan one soldier was caught while doing some scout duty and shot down when one of his comrades were in sight. Weeks afterward his body was found lying before a tall rock, on which he had written in letters of blood, "I want all to go to mother." In both cases the war department held the wills to be valid, and saw that the proper distribution of the property was made.

Not Room in the Churches.

An English authority has estimated that if all the inhabitants of the British Isles should decide to attend church on a given Sunday 25,000,000 would be crowded out for lack of seating room in the churches.

GIRL STRIKERS HAVE ALL GONE TO WORK

TOBACCO HOUSES ABSORB COT- TON FACTORY WORKERS.

Nearly One Hundred Women Find Pay-
ing and Congenial Work in the Lo-
cal Tobacco Houses—Boy Strikers
Want More Wages and Less Hours
—Mass Meeting Today.

The one hundred women strikers of
the Janesville Cotton Factory Co. have
settled the strike to their own satisfac-
tion. Every last one of them has gone
to work in the local tobacco ware-
houses.

"Now let the cotton Company root,"
said the only representative of the girl
strikers at the mass meeting called at
the armory at 2 o'clock this afternoon.
"We get better wages, shorter hours
and lighter work and we can afford to
laugh. The factory people will have
a job filling our places."

"They have not treated us right and
they know it," she continued. "An
average of \$20 per month, which we
were making, is poor pay. When the
times were good we got 21 cents for 48
yards weaving, now we get only 18 cents
and 9 mills for 51 yards. They were
crowding the cloth on us and beating us
both ways. They say good times have
come and we want to share in them."

"The girls that struck are all at work,"
I was sent here to see what the boys
would do."

The boys gathered at the Armory
numbered about 25 and they were loud
in their complaint of low wages and long
hours. They claim they were given a
cut of 10 per cent in 1893, which has
never been restored. Forty-five cents
per day or maybe \$3 per week they al-
lege is all they could make. Besides
they began work at 6:30 a. m. with a
half hour noon and worked until
6:30 p. m. They demand 60 cents per
day and 10 hours. There was no organ-
ization among them but they sat around
the hall and talked and did not know
what they would do except that they
would not go back to work under the
old conditions.

REPORT THAT MALONE'S DEAD

Champion Pool Player Who Has Given
Exhibition Games in Janesville.

A report has reached this city that
James Malone, champion fifteen ball
pool player of the world, has recently
died in a small Texas or Mexican town.
The news has not been confirmed as
yet. It is known that Malone was suf-
fering with lung troubles and that it
would result in consumption. Letters
received from him a few months ago
said that he was a very sick man and
suffering from the second stages of con-
sumption. Malone is well known in
Janesville having played several exhibi-
tion games here.

SIX SCARLET WOMEN BEFORE THE COURT

ALL PLEADED GUILTY AND PAID THEIR FINES.

Only One Had Been in Court Be-
fore in This City—Inmates of
Houses of Ill Fame—Chief Hogan
and His Men Make a Wholesale
Raid.

For being inmates of houses of ill
fame in the city of Janesville, Chief of
Police J. W. Hogan today placed the
following women under arrest: Ruby
Crane, Mabel Harrington, Florence
Butler, Josie Le Monde, Dollie Coleman
and Mary Tierney.

The women were arrested during the
day in different portions of the city. At
3 o'clock this afternoon the six defend-
ants filed into the municipal court and
took seats within the bar of justice.

Each one of the girls pleaded guilty
and each was fined \$15 and cost or a
total of \$17.16, with the exception of
Josie Le Monde, who was fined \$20 and
costs or a total of \$22.61.

Josie was fined \$5 extra because she
had on one previous occasion appeared
before the court. All paid their fines
and departed, apparently satisfied.

AGENT M'KEVITT HERE SEEKING EVIDENCE

Claim Agent McKevitt of the Chicago,
Milwaukee & St. Paul railroad was
in the city today gathering evidence in
what promises to be an interesting law
suit against the road. D. K. Lawrence,
a real estate and loan agent living at
Emmettsburg, Wis., is the man who
threatens suit.

While on his way from Milwaukee to
Janesville Mr. Lawrence alleges that he
was badly injured as the result of care-
lessness on the part of the railroad men.
When Mr. Lawrence left Milwaukee he
boarded the regular passenger. In order
to reach Whitewater he was obliged to
change cars at Brookfield Junction. This
he did. As he entered the car-
house of the freight he seated himself.
The only other passenger in the car was
Deputy Samuel Brown of this city.

At each station between Brookfield
Junction and Whitewater, Mr. Lawrence
alleges that the train would come to a
sudden halt which nearly threw him
from his seat. He said he complained
to the railroad men but it did no good.
When the train entered the yards at
Whitewater, Mr. Lawrence says it came
to a sudden stop throwing him violently
to the floor which resulted in his being
badly injured. Now he wants dam-
ages.

TITLE DOCTOR RATHER MIXED

Sad State of Affairs As they Exist in Janes-
ville These Days.

The title of "doctor" in our city has
become so mixed and so common that
when you are introduced to a Doctor So
and So, you cannot for the life of you
tell where to place him.

He may be a doctor of divinity, or a
veterinary surgeon, a doctor of osteo-
pathy, a faith or Christian Science
curist or a magnetic healer. His title
might have been bestowed on him by
some great university or by some cross-
roads college, or he may have conferred
it on himself. In view of this puzzling
and embarrassing state of things some
anonymous person utter the following
complaint:

"When I was introduced to Doctor
Jones I don't know whether to consult
him about my soul, my rheumatism, my
horse, my toothache or my libel suit. I
have no way of knowing whether he
can best inform me about the religion
of the Ethiopians or the malleability of
iron."

A Well Fastened.

A New York woman has designed a
fastener for veils, comprising a double-
ended wire loop, with prongs at the
center to attach it to the hat or hair,
safety-pins being provided with hooks
to engage the loop, after the pins are
inserted in the veil.

Paris Showshops.

London Chronicle: All sorts and
conditions of people patronize the
Paris Mont de Pieté, or municipal
pawnshop. A report just issued shows
that among the borrowers last year
were 8,600 working people, 8,497 em-
ployes, 6,564 merchants, tradesmen
and manufacturers, and 2,019 repre-
sentatives of the liberal professions.

Rentiers, who live on their dividends,
frequently seek the help of the friend-
ly Mont, and 2,208 of this class are
among the borrowers. The institution
is looked upon more as in the nature
of a bank than is the pawnshop. It
advances money at low rates of in-
terest on any form of security, includ-
ing furniture and railway shares, and
is used by the tradesman short of
capital as well as by laborers out of
work.

Strange Story of a Watch.

A strange experience recently befell
George Dietz, formerly a resident of
Chester, Pa., but at the present time
in the jewelry business in Honolulu. Mr.
Dietz has recovered a watch which he
lost over thirty years ago at Gettys-
burg. He was fighting for the north
on that bloody battlefield when he
dropped it. The watch was recently
brought into the jeweler's shop by
Harry Ellis of the Kansas volunteers.
The soldier, who was bound to Manila,
wanted to sell it. On being asked
where he got it he said his father, who
had found it on the battlefield of Get-
tysburg, had given it to him. The jew-
eler opened it and saw his name
scratched on it. He lost no time in
making a trade with the soldier.

REQUIRE TESTS OF MILK

State Board of Health Will Soon Get
After the Milk Peddlers

Local milk dealers will do well to be
on their guard from now on. The state
board of health at its session at Mad-
ison yesterday afternoon decided to re-
commend to the cities and villages in the
state the passage of ordinances requir-
ing tests of milk. Dr. H. L. Russell of
the state university appeared before the
board and pointed out the danger that
might arise from tuberculosis in cattle,
citing several instances where the dis-
ease had been discovered.

MAY ABANDON LONG RUNS

Engine Crews Claim That the Work is
Altogether Too Hard.

It is reported that the long runs on
the Northwestern from Chicago to Elroy
via Janesville will soon be abandoned.
The long runs have been on the fast
trains, but even these runs have proven
too much for the engine crews. The
distance of 175 miles is long enough for
any one engine to make. There seems
to be no question that the time will soon
come when the runs will all be divided
at Baraboo, the natural division point.

TWENTY-FIVE SIGNED PLEDGE

Murphy Temperance League Received
Many New Members This Week

Twenty-five signers have been secured
this week as members of the Francis
Murphy Temperance League. This is
considered excellent work for one week
and is due to the hustling ability of Al
Smith and John H. Jones. The League
is daily increasing in membership. An
effort will soon be made to bring a noted
speaker here and it is not at all unlikely
but what this man may be William
Murphy, son of Frances Murphy.

William Buchholz, son of Mr. and
Mrs. Herman Buchholz of this city, and
a former well known Janesville boy, has
just been honored at Salt Lake City by
being elected to the office of manager
of the clearing house. For several
years Mr. Buchholz has filled the re-
sponsible position of paying teller of
the Commercial bank. His many local
friends will extend congratulations.

MRS. LUCINDA WELLS DIES IN MICHIGAN

ONE OF THE PIONEER SETTLERS IN WISCONSIN.

Came to Janesville When Indians Were
Numerous—Sister of Mrs. Volney
Atwood of This City—Remains Will
Will Be Buried at Schoolcraft—
Other Obituary Notices.

Mrs. Lucinda Wells, one of the first
white settlers to locate where is now the
thriving city of Janesville, died last
evening at 5 o'clock at her home in
Schoolcraft, Mich. Mrs. Volney At-
wood, residing at the corner of Franklin
and Dodge streets, is a sister of Mrs.
Wells. Three sons are left to mourn her
loss, and the remains will be buried in
the cemetery at Schoolcraft.

Mrs. Wells was eighty-three years
of age and was a woman who was held
in the highest esteem by all who knew
her. With her father's family she came
into Wisconsin from the state of Indiana,
coming overland via Belvidere, Illinois.
Their progress across the country by
team was also on account of rough roads.
Indians were then plentiful and the
woman at all times were
afraid of being harmed. On
reaching the prairie lands near this city
Mr. Wells and his family found the
country for miles about brightened with
wild flowers. In the year 1836 the
Wells family arrived on the banks of
Rock river not far from where now is lo-
cated the postoffice in the city of Janes-
ville. Few white families were then in
this part of the country.

In 1843 Mrs. Wells married. During
the past few weeks she has been in poor
health.

D. M. Donahoe.

The remains of the late Conductor D.
M. Donahoe, who died at Baraboo, Wis.,
on Wednesday arrived in the city this
afternoon at 2:50 and were taken direct

Meteors Prefer Morning.

An interesting and significant fact
is that the average hourly number of
meteors is only half as great in the
evening as in the morning, and in the
evening their velocity is lower, says
Prof. C. A. Young in the New Lippincott
for November. The reason is that at
sunset we have before us the point in
the heavens from which we are mov-
ing in our orbital journey around the
sun, while in the morning we face the
point toward which we are ad-
vancing; in the evening we are in the
rear of the earth, at sunrise in front.
This increase in the numbers and
speed of the morning meteors is just
what ought to happen if they are bod-
ies moving indiscriminately in all di-
rections under the sun's attraction, and
with the velocity (about twenty-six
miles a second) which a body would
acquire in falling toward the sun from
a distance very great as compared with
the size of our planetary orbits.

Atheism Encourages Suicide.

The figures taken from the official
records of three Bohemian fraternal
benefit societies, for periods of from
three to five years, show that in every
1,000 deaths there were in the first 100
suicides, in the second 200 and in the
third 333. The circular calls attention
to the fact that along with this remark-
able prevalence of suicide in these so-
cieties there exists a general infidelity,
and argues that there is a connection
of cause and effect between them.

HEAVY GUNS HEARD NEAR LADYSMITH

INDICATIONS THAT A DESPERATE BATTLE IS NOW ON.

Gen. Buller's Advance is Planned By Military Experts—War is too Days Old Today—The London War Office Feels Confident of Victory in Natal.

London, Jan. 20.—The war office has given out nothing in regard to the Ladysmith situation since Sir Redvers Buller's message reporting Lord Dundonald's fight with the Boers near Acton Homes, and there were but few details in this. Gen. Buller says he has reinforced Lord Dundonald with a detachment of the First dragoons. Besides the dragoons Dundonald's force now consists of the Thirteenth hussars, six squadrons of Imperial and South African light horse, Bethune's horse, Thorneycroft's mounted infantry and some Natal carabineers, probably about 2,500 mounted men all told. He has also several Maxim and Colt guns on galloping carriages.

The reports of heavy guns were heard on Thursday morning in the direction of Ladysmith. The cause and results are as yet unknown.

Planned by the Experts. Military experts in London figure the course of the coming big battle to be somewhat as follows:

Lytleton's brigade will demonstrate against or attack the Boer front after a heavy bombardment, supported probably by Hart's or Hildyard's brigade.

Gen. Warren will then attempt to turn the Boer right flank. The cavalry will strike towards Blaauwbank, on the roads to Tintwa and Van Rensselaers passes.

The Ladysmith garrison will make a determined sortie to the west and endeavor to debouch on Dewdrop.

Simultaneously Barton will feel the strength of the enemy at Colenso.

The whole movement is considered as risky as it is audacious, but it is necessary. If it proves successful the position of the enemy will be a serious one. It will be attacked in front, on the flank and in the rear. If the plan fails the position of the British force will be equally bad.

War One Hundred Days Old. Yesterday was the one hundredth day of the war.

With Gatacre and French there is no change. Kimberley reports "All well, but anxious for news." Mafeking the same.

Lord Methuen made another reconnaissance on the new Boer laager, but by the time his forces arrived on the scene the Boers had disappeared.

Buller's Position is Stronger. Every hour that Gen. Buller delays his combined attack makes his position stronger.

Transports continue to arrive at Durban and fresh troops are being sent up the line to reinforce those in front of Colenso.

It appears that Gen. Buller's troops north of the Tugela number at least 22,000, and possibly 25,000, with fifty guns. His total forces, forming a great outer curve south and west of Ladysmith, probably number 40,000.

While Gen. Buller's forward operations, which began on Jan. 10, develop rather leisurely, the Boers appear to be fully aware that they must meet a strenuous assault. Balloon observers have roughly estimated that 10,000 Boers are using spade and pick in artificially strengthening positions which nature has rendered easy of defense.

War Office is Confident. There is nothing up to the present to support the story that the relief of Ladysmith is an accomplished fact, but it is learned on excellent authority that the situation is now regarded at the war office with entire confidence, and that the beleaguered town is considered practically relieved, although there is no attempt to understate the

danger and difficulty of Gen. Buller's task.

Death of G. W. Steevens. A Ladysmith dispatch published in today's Chronicle announces the death from fever on Monday, Jan. 15, of George W. Steevens, the distinguished war correspondent of the Mail.

Is Ordered to Mobilize. Formal orders have been issued to mobilize the Eighth division of the British army.

Hints at Another Defeat. Paris, Jan. 20.—The Temps, in what seems to be an inspired article, says: "Who knows whether Sir Charles Warren, instead of turning one of the flanks of the republican army, is not going to fall in front of an army which has simply turned on a pivot itself? Who dares to guarantee that between Potgieter and Ladysmith the Boers are not in as well fortified positions as are those between Ladysmith and Colenso?"

Relief's Guns Cheer Ladysmith. Ladysmith, Jan. 17.—Everything is quiet. The position is unchanged, and there is very little bombardment.

The welcome sounds of the guns of the relief column were heard yesterday from Colenso and Springfield. The heat is intense, but there is no increase of sickness.

Canadian Scouts Arrive. Cape Town, Jan. 18.—A number of Canadians, including two experienced scouts, arrived here, and have offered their services for scouting purposes. They have paid their own expenses, and say there are hundreds of others anxious to follow them.

Deaths from Fever at Ladysmith. Pietermaritzburg, Jan. 18.—A telegram message from Gen. White at Ladysmith reports twenty deaths from fevers in the camp, from Jan. 15 to Jan. 17. He also reports that two men were wounded on Jan. 16 and two more on Jan. 17.

Admiral Hay at Cape Town. Cape Town, Jan. 17.—Admiral S. Hay, the United States consul to the Transvaal, arrived here today. He will start for Pretoria on Saturday.

Masked Men Use Explosives. Blow Open Vault of Commercial Institution at Silver Lake, Ind.

Peru, Ind., Jan. 20.—The Commercial bank of the town of Silver Lake, about twenty-five miles northeast of this city, was wrecked between 1 and 2 o'clock Friday morning by masked men, who blew up the vault and safe with nitroglycerin. The racketsmen carried away about \$4,000 in paper money. They were compelled to leave several sacks of silver, owing to a battle begun by citizens. These sacks contained \$15,000.

The town's night watchman, William Price, was eating at a restaurant about two blocks from the bank, when he heard an explosion. In company with the restaurant keeper he started to investigate. In a moment a second explosion occurred, followed by three more. When the watchman and his companion reached the bank five masked men faced them and forced them back with drawn revolvers. The watchman immediately began shooting at the robbers. They returned the fire and backed toward the railway tracks, where their handcar was concealed. The fight was kept up for three blocks. The noise of the shooting brought many citizens to the scene. The safe-blowers finally made a dash for the handcar, and by rapid shooting kept the citizens at bay until they could make their escape.

W. W. Herrick, a citizen, was shot in the right arm. One of the burglars was also shot.

The bank building is a two-story brick. The explosion cracked the walls, and the interior is a mass of wreckage. The bank is owned by Adam Stout & Co. The handcar was stolen at North Manchester, to which place the robbers were traced.

Smallpox in the Jail. Owensboro, Ky., Jan. 20.—Several cases of smallpox have been discovered in the jail here, and great excitement prevails among the prisoners. Judge Owens has refused to allow Jailer John Ashby to come into court. There are about 240 prisoners in jail, ten of whom are United States prisoners.

Indicted Miners Sent to Vienna. Marion, Ill., Jan. 20.—Friday nine miners held here, indicted for the killing of four negroes in Carterville, July 1 last, were taken to Vienna, where they go on a change of venue for trial. They were guarded by a portion of Company B, Fourth Illinois.

Will Admit American Fruit. Berne, Jan. 20.—The Bundesrath abrogated the previous regulations, granted permission for the importation of dried American fruits, and also fresh fruits, on condition of their examination at the Basle custom house.

American Goods Released. London, Jan. 20.—The foreign office has notified Ambassador Choate that a portion of the seized American cargoes has been released. It will be landed at Lourenco Marques and delivered to the consignees.

Racine Has a \$40,000 Fire. Racine, Wis., Jan. 20.—The Common Sense Trunk company's factory was burned at 2 o'clock Friday morning, at a loss of more than \$40,000.

GENERAL TRADE HOLDS FIRM.

Demand Large for This Season of the Year.

FEW UNFAVORABLE FEATURES.

Business of the New Year May Surpass That of the Old—January Trade Has Been Exceptionally Heavy—The Failures.

New York, Jan. 20.—Bradstreet's says:

"General trade and prices as a whole maintain the even balance which has been the leading feature for some time past and in which it will require the advent of distinctly new features to effect any basic changes. General demand is large for this season of the year, but speculation is quiet to the extreme of dullness in some lines, and especially in those branches of speculation which go radically to affect financial affairs. Close examination of leading lines of industry fails to show marked unfavorable features. The iron and steel industry, justly regarded as a trustworthy index of general trade, is still actively employed on old orders. Other metals are rather stronger, copper and tin being weak. Cereals are dull in nearly all directions. Coffee is active. Cotton goods are meeting with good demand on spring account. Fine wools are at about the highest point reached in twenty years. Lumber is strong."

R. G. Dunn's weekly review of trade says:

"Whether the new year will surpass or keep pace with the old is the question which gives especial interest to every week's returns. Comparing now with business by far the largest and most prosperous ever known, a year ago, more than 40 per cent larger than in January, 1898, which in its turn had shown heavier business than in any year preceding, it cannot be expected that such a gain will be repeated. But the decrease of 9.6 per cent in payments through clearing houses is wholly due to the great speculative activity at New York last year.

"Perhaps the most important industrial event is the marketing of woolen goods at prices averaging 13.4 per cent higher than last year. Sales in three weeks, 14,920,800 pounds, have been smaller than in the corresponding weeks of the three previous years.

"Failures for the week have been 242 in the United States, against 249 last year, and forty in Canada, against thirty-two last year."

"I have also recommended these medicines to my friends who suffered from female weakness."

GRATITUDE

Letters from Women Relieved of Monthly Pain by Lydia E. Pinkham's Vegetable Compound

Painful Menstruation

"DEAR MRS. PINKHAM:—I was troubled with female weakness, irregular and painful menstruation. I suffered so every month that I was obliged to go to bed, but thanks to your medicine I am now well. I would advise all women who suffer as I did to use Lydia E. Pinkham's Vegetable Compound."—MRS. ANNA LACY, ROSS, IOWA.

Grateful Miss Musselman

"DEAR MRS. PINKHAM:—I always suffered at time of menstruation ever since menses began, with bearing-down pains, sickness at stomach, sometimes vomiting for two days, sometimes becoming worse. I tried many things, but obtained no relief. At last I concluded to try your medicine. I took several bottles of Lydia E. Pinkham's Vegetable Compound and followed your other directions, and now menstruation is painless. I feel and know that I owe it all to your medicine, and never fail to recommend it. I am very thankful for what your medicine has done for me, and wish that every afflicted woman would try it."—JENNIE C. MUSSELMAN, 611 West Ave., Sidney, Ohio.

Prostration at Monthly Periods

"DEAR MRS. PINKHAM:—I was greatly troubled with my menstrual periods, was very weak and nervous, could not work at all. I have taken Lydia E. Pinkham's Vegetable Compound for several months, also used the Liver Pills and Sanative Wash, and am wonderfully improved in health. My neighbors are all surprised to see me out and doing my own work. I would advise every suffering woman to try Lydia E. Pinkham's remedies."—MRS. HENRY MUELLER, 543 McAlpin Ave., Clifton, Cincinnati, Ohio.

Irregular Menstruation

"DEAR MRS. PINKHAM:—I want to thank you for what Lydia E. Pinkham's Vegetable Compound has done for my daughter. It has helped her very much. She had doctors for two years, but obtained no relief, and now in two months and a half she is well. Menstruation is now regular, appetite has returned, the pain has left her side and her headache is better. I feel very thankful to you also for your kind advice."—MRS. AUGUST PFALZGELF, South Byron, Wis.

WHAT WOMEN ARE DOING.

Some of the Things Which Tell of the Forward Movement.

Almost daily we hear of new honors pouring in upon the professional woman who is seeking to elevate as well as promote the interests of herself and sisters. Miss Beatrice Jones, daughter of Mrs. Cadwalader Jones, a young and attractive society woman of New York city, is winning new laurels. She is the only woman in America who has lent her energies toward landscape gardening. She will probably be appointed in this capacity and have entire charge of the grounds of the new cathedral of St. Peter and Paul which is to be erected in Washington.

Professor Sargent of Harvard university, who is generally known to be most kindly disposed toward the advancement of woman and the broadening out of her horizon.

took particular interest in Miss Jones and made it possible not only for her to take his courses, but also to study at the Arnold Arboretum. As there are no schools for landscape gardening, Professor Sargent assisted Miss Jones in planning out a practical course, which combined surveying, road building and mineralogy, in addition to an exhaustive course on horticulture and forestry.

Miss Jones' method is to assume complete charge of the grounds after consulting with the architect, as to the location of the house. Her most recent success was the planning and laying out of Chiltern, the new country home of Edgar Scott at Bar Harbor. Her plan is to direct her energies toward assisting nature. She advances the cardinal idea of having everything in keeping with the natural surroundings. In this one instance at least Miss Jones accomplished this to perfection, turning wild woodlands and swamps into enchanting bowers and terraced lawns.

Among the new society women who will grace the coming season in Washington is Miss Edith Root, daughter of Elihu Root, secretary of war.

Mrs. Ira E. Turt is the founder and manager of an electric plant at Long Branch, Cal.

One of the strange features of the recent election in New York was a family feud which lost one man a job worth \$60,000 a year, while his own nephew won from him a lot of \$26,000 on his defeat. When Alderman McGarry, one of the Democratic leaders of Brooklyn, died some time ago, he left a fortune of \$1,000,000, a widow and two ambitious sons. After his death the boys and their mother agreed that they would control the politics of the ward wherein the former alderman had been the leader. John Morrissey Gray, a brother of Mrs. McGarry, objected to this and essayed to be the leader himself. The political forces, ignoring the McGarrys, nominated Gray for a lucrative office. Then began a contest in which a woman's wit and tact proved more than a match for the political managers. Mrs. McGarry organized a campaign against her brother, personally directing the fight, generously unloosening her purse strings and opening her handsome residence as political headquarters. As a result Gray was defeated, all his colleagues on the Democratic ticket being elected by large majorities, and Mrs. McGarry triumphed as a political leader.

There recently arrived in this country the Countess Adeline Schimmelmann, who is known as the royal missionary. She goes around the world on her yacht Duen on a self imposed task of relieving misery wherever she finds it.

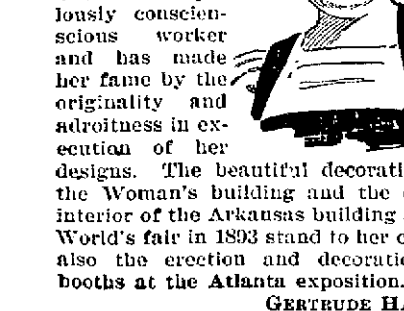

South Dakota has a "girl campaigner" in the person of Miss Hattie Rose Laube, daughter of a well known western inventor, who has made many political addresses. Politically she is a Republican, but one of her warmest friends is United States Senator W. A. Clark, a Democrat, the Montana copper king and multimillionaire.

One of the very few women who hold justices of the peace commissions from the governor of a state is Mrs. Louisa J. Cabell, an attractive widow of Lowell, Me. Mrs. Cabell not only holds court with becoming judicial dignity, but prosecutes pension claims, manages a farm and conducts an express business.

Miss Nellie Tully, a bright young woman who went to Colorado a few years ago, was recently elected treasurer of San Juan county, in that state.

Mary E. Trivett-Haight, wife of Attorney Charles V. Haight of Norwood, Ill., is one of the early pioneers in the work of original designs and interior decoration.

Her work commands the highest prices and has won wide attention. She is a scrupulously conscientious worker and has made her fame by the originality and adroitness in execution of her designs. The beautiful decoration of the Woman's building and the entire interior of the Arkansas building at the World's fair in 1893 stand to her credit; also the erection and decoration of booths at the Atlanta exposition.

GERTRUDE HALL.

IS RE-ELECTED BY MINERS.

John Mitchell Still at the Head of the Organization.

Indianapolis, Ind., Jan. 20.—John Mitchell, president, and W. C. Pearce, secretary, were re-elected by acclamation Friday by the United Mine-Workers' convention. Three hours were allotted for voting for the other officers, and the tellers are counting the ballots.

There was a hot discussion in the convention just before adjournment in the evening over a resolution on which the resolution committee had made an adverse report. It provided that \$30,000 should be expended during the year for organizing purposes in the various fields. The measure finally went to the committee on constitution.

A number of resolutions bearing on injunctions were referred to the special committee on injunctions, which is in session in the Occidental hotel.

The matter of a defense fund was referred to the committee on constitution, and it is believed that it will recommend favorable action.

President Mitchell announced that he had received a telegram stating that the Iowa operators would be represented in the joint conference next week.

The threatened strike of the miners in the First Pennsylvania district is awakening considerable interest among the delegates to the convention. While the men, who will be first affected in case of a strike do not for the most part belong to the union, there is a deep feeling of sympathy for them in the organization and words of cheer have already been sent to them.

President Mitchell said that while he had no official advice from the district he would not be surprised to hear that the miners had gone out, and he added that if the 40,000 men did strike the trouble would probably involve a total of not less than 100,000 men.

McGiffert Will Withdraw.

New York, Jan. 20.—Members of the New York presbytery hear that Prof. Arthur C. McGiffert of Union Theological seminary will have his answer in printed form next week, and that he will send it to them for private perusal. They also hear, through a close friend to the professor and one who has been identified with the matter for some time, that the answer will be an announcement of his willingness to withdraw from Presbyterian church membership.

Rob a Bank of \$4,000.

Bloomington, Ind., Jan. 20.—The village of Ellettsville was aroused from its slumbers at 2 o'clock Friday morning by a loud explosion, which seemed to shake the whole town. Upon investigating it was discovered that the village bank had been broken into and the safe looted. The robbers secured about \$1,500 and escaped on a hand-car. George Fryhofer, the bank cashier, says papers were taken of sufficient value to make the aggregate loss \$4,000.

Von Bulow Is Satisfied.

Berlin, Jan. 20.—In the reichstag Friday Count von Bulow, minister of foreign affairs, announced the details of the settlement of the controversy raised between Germany and Great Britain over the seizure of the steamer Bundesrath at Delagoa bay on Dec. 30. Count von Bulow not only stated that the British government had acceded to Germany's demand for the release of the steamer, but had made concessions which would prevent a recurrence of the incident.

Prompt Answer for Allen.

Washington, Jan. 20.—The state department will send a prompt answer to Senator Allen's resolution, adopted by the senate, calling for information as to the refusal of the government to receive officially a representative of the Transvaal. The answer, in effect, will be that Gen. James R. O'Rourke of New York, who was accredited to this government as the Transvaal's commissioner, was an American citizen, and, as such, could not be recognized by the United States as the diplomatic representative of a foreign country.

House Passes the Pension Bill.

Washington, Jan. 20.—The pension appropriation bill, carrying \$145,245,250, was passed by the house Friday. It was made the vehicle of an attack upon the commissioner of pensions by Mr. Curtis (rep., Kan.), who was seconded by Mr. Lentz and Mr. Norton of Ohio and Mr. Robinson of Indiana and other northern democrats. The commissioner was defended by a score of members from both sides of the house.

Callow Will Vote for Quay.

Washington, Jan. 20.—Senator Callow has authorized the statement that he will vote in favor of seating Mr. Quay.

Extradition Papers Granted.

Valparaiso, Jan. 20.—Judge Huidobro of the Supreme court has granted extradition papers in the case of Frederick Moore, formerly a bank official of Boston, Mass., who is accused of embezzlement.

STRENGTH AND VIGOR
THE WORLD'S NEED.DR. GREENE'S NERVURA
BLOOD AND NERVE REMEDY

The One Sure Remedy for the World's
WEAK, SICK, and SUFFERING.

What is it all the world hungers for? Strength, energy, the electricity, the vigor and power of youth.

What makes these things? Why, fiery blood, and snapping nerves, iron strength, superb health.

And whence comes superb health? By the use of Dr. Greene's Nervura blood and nerve remedy (nature's own medicine), we may build our weakness into strength, our exhaustion into vigor, our prostration into renewed life and energy.

Dr. Greene's Nervura is the remedy of remedies—the one sure and perfect cure for disease—the medicine which makes people well. It is the renewer of life, the true tonic and restorative, which gives appetite and enjoyment for all life's pleasures. Everybody should take it, if well to keep so; if ill to make yourself well.

Take it—and be strong.

Mr. F. P. Dearth, Woodville, N. H., says:—

"I was taken sick and was ailing for a long time. I had a stomach trouble and was unable to work much for about a year. I employed a doctor for a year, who did not seem to hit my case. I was weak and the slightest exertion worried me. I heard of Dr. Greene's Nervura blood and nerve remedy and of its wonderful results on other people, and I resolved to try it, and from the results I can say nothing but good for it. I have not been as well in years as I am since taking Dr. Greene's Nervura, and I cheerfully recommend it to all."

Dr. Greene, 35 West 14th St., New York City, is the most successful specialist in curing nervous and chronic diseases. He has remedies for all forms of disease, and offers to give free consultation and advice, personally or by letter. You can tell or write your troubles to Dr. Greene, for all communications are confidential, and letters are answered in plain sealed envelopes.

WINE OF CARDUI

WOMEN WHO WORK.

St. Louis, Mo., Aug. 12.
Though only 19 years old, I suffered from pains and female troubles two years. Last spring I got so bad I had to quit work. I had to support myself, and could not afford a high priced doctor. I got one bottle of Wine of Cardui and that made me feel better. Have now used several bottles and am well. My mother used the Wine for Change of Life and was greatly relieved.
MISS MARGARET WALSH.

Wine of Cardui

Many girls and women find it necessary to earn their own living in various kinds of employment. Their work is often so hard and confining that the health breaks down. Their delicate constitutions are unfitted for tireless tasks. Weakness nearly always makes its appearance in the peculiarly delicate womanly organs. Constant standing on the feet, and coming and going at the beck of a superintendent or foreman, induces falling of the womb, leucorrhoea, headache and backache. The pay of women workers is often so notoriously small that when sickness comes they have no money to engage skillful physicians. To them Wine of Cardui is truly a blessing. It cures them of their ills at a small cost, and they can act as their own physicians. No doctor can do as much for "female troubles" as Wine of Cardui.

X-Ray Lamp Ahead of Electricity, Gas, Acetylene Or Any Other Artificial Light Known to the World.

A reliable 100 candle power light that is economical in the first cost and also in the cost of running, is in great demand. It enables you to form a corporation of your own, and have a light that will grace the most artistic parlor, as well as one that can be used any place to great advantage.

THE X-RAY GASOLINE LAMP!

Fills all these requirements and more too. They are easily cared for, can be carried about like a lantern, produce the finest artificial light on earth and there is ABSOLUTELY NO DANGER. The mechanism of the X-RAY GASOLINE LAMP is simple and reliable. We know they are all right and give a GUARANTEE FOR FIVE YEARS with each lamp. Read this warrantee.

Certificate Of Warrantee.

WE HEREBY GUARANTEE the X-RAY LAMP, for a period of five (5) years as to construction and practical mechanical working, and stipulate that it will develop and maintain a light of from eighty (80) to one hundred (100) candle power upon the basis of a consumption of one-seventh (1.7) of a pint of gasoline per hour; PROVIDED it is handled according to instructions furnished by us. We will substitute perfect parts for any which may, upon investigation, prove defective, without charge. We do not guarantee Mantels, Chimneys, Gallery or Shades.

GREEN & ALLEN.

Do not confuse this Lamp with other Gasoline Lamps now on the market. Some have been pushed upon the people of this vicinity by unscrupulous and dishonest agents. We have been established in business in Janesville for a number of years and have taken hold of the X-Ray light because we know it is a good thing. We cannot afford to lose our reputation by putting out anything but reliable goods. We are back of every statement and every light we send out. We are here to make right any dissatisfaction. The X-Ray Lamp burns common gasoline, which is contained in a quart reservoir some distance from the lamp. The gasoline passes down through a filtering tube into an open generator where it is made into gas and burns into a mantle, giving a steady, white light that is both brilliant, soft and beautiful. The filtering tube is simple—cannot clog up. The generator is open and can be cleaned in a moment's time by any child. We carry eight different styles in stock and can give you anything from a plain Japanned Wall Lamp to a beautiful 4-light chandelier.
